ST. PETERSBURG A BATTLEFIELD.

1,500 People Shot Down by the Troops—Barricades Erected—Armed Strikers Marching on the City—The Soldiers are Camped in the Streets.

St. Petersburg, Jan. 23rd.—The industrial and political situation which has been growing daily worse culminated yesterday in a clash between the troops and the mob. Constant efforts have been made during the week to give the industrial movement a political complexion. So far was this successful that the demonstration proposed to be held yesterday was disallowed by the authorities and the garrison was strengthened by the addition of cavalry and infantry. The orders were disregarded and the striking workmen and their sympathizers paraded the streets and finally broke bounds and began to pillage and loot. The troops who were patrolling the streets in several quarters of the city

fired on the mobs with terrible effect. The estimates of the killed and wounded range from 1000 to 1400.

Last night the city was in darkness, the employees of the electric light and gas works having joined the strikers.

The situation this morning is quiet. The troops are bivouacked in the streets.

Streets Yet Run With Blood.

London, Jan. 23rd.—Destiny has moved with startling suddenness in Russia, and Europe stands aghast at the latest news from the Russian Capital. Monday morning papers put the casualties at 2000 dead and 5000 wounded. The Emperor and the Royal Family have fled to

PROVINCIAL AUTONOMY.

The premier has lost no time in making good his promise made before the election to take up the question of provincial autonomy for the Territories immediately after the election. As soon as parliament was called an invitation was extended to the Northwest government to meet the Dominion government at Ottawa to discuss the matter before the session. The speech from the throne stated that an autonomy bill would be introduced at the present session and the premier in the course of the first debate mentioned that the bill to grant autonomy to the Territories would be the only important work of the session. Already preliminary meetings are reported to have been held with a plan sketched for the division of the Territories into two provinces. The Manitoba legislature at the instigation of the Manitoba government, is out with a demand for a slice of the Territories before provincial powers are granted, and the far eastern and far western provinces of the Dominion are also out with demands for a rearrangement—that is an increase of subsidy based on the proposed financial arrangements with the new provinces or provinces. Not only is the government living fully up to the word of the premier in the matter but there seems to be a determination on all hands to get into the game. It is rapidly becoming apparent to the most unobservant that the question of granting provincial establishment to the Territories is recognized as a matter first importance, not only to the Territories but to the Dominion at large; and that it will be decided for Dominion rather than for Territorial reasons.

Here in the Territories we have been in the habit of considering the subject of provincial establishment as one which only, or at least chiefly, concerned ourselves, and the terms upon which we would accept it to be decided by ourselves. But with Manitoba demanding a slice of territory and all the smaller provinces clamoring for a re-arrangement of subsidy it is clear that instead of having the whole six we have only one say in the decision. This may lead to results which have not been looked for, and may cause a revision of Territorial opinions on the subject. For instance Manitoba will oppose autonomy on adequate terms unless she gets the slice for which she is reaching. And the other provinces will oppose adequate financial terms unless and until they get the rearrangement they demand. The tendency of the Territorial demands of Manitoba and the financial demands of the other provinces will be to minimize the advantages of the autonomy measure when granted, and so render it less satisfactory to the people of the Territories.

Taken altogether it is a far reaching and many sided question, and will be the better of very full consideration and discussion before a decision is reached.

Although the Dominion premier as he promised is giving immediate consideration to the question, it is to be hoped that a hasty conclusion will not be reached. Manitoba and the other provinces are making themselves heard without delay. That is well. But although others are concerned in provincial organization for the territories, the Territories themselves are after all the parties most interested and should be heard from most fully by thorough their federal and local representatives. The present preliminary negotiations are being carried on by Premier Haultain and Commissioner of Public Works Bullock on behalf of the local government of the Territories. These gentlemen are not at the

It would seem that we are now in for

**Three Months
of Steady Cold
Weather**

If it was to last only a few days or weeks, then any kind of a Heating Stove would tide you through, but for a long spell of cold weather where you need your house warm night and day there is no Stove on the market so well adapted for heating as the

“Riverside Oak”

It will heat two rooms at once. It has a hot air pipe attachment and it will take the cold air from the floor, heat and distribute it into any room the Hot Air Pipe is carried into, without burning any more fuel. It burns equally well Coal or Wood and the price is very low considering its efficiency and economy.

Ross Bros. Limited have handled this Stove for a long time and can conscientiously recommend it as sure to please. Have you seen the New Steel

Monarch Range

guaranteed all Steel and Malleable Iron. The top of this Range is ground to a finish, just the same as a Fry Pan or Kettle and can be used for Frying and Toasting just the same as a French Top Range. The Ovens are the most uniform of any Ranges made. The water fronts are so modelled that they will heat twice the water of an ordinary Range. It burns either Wood or Coal equally well and will heat up quickly and on a less quantity of fuel than any other range made.

See the One in our Window

they are beauties and the price is not so high as you would expect to pay for so good an article. We keep everything in Kitchen Utensils and truly think we can give you better value than any other House in the West.

Ross Bros.
Ltd.

present time properly entitled to speak for the people of the Territories. They represent a legislature one fifth of whose seats are vacant. They represent a political idea which one of them has publicly and definitely repudiated. Their joint conduct of the government of the Territories is notoriously in violation of constitutional precedent. It is a compromise with principle which the British system of responsible government does not acknowledge. It might be all right as a matter of convenience under ordinary circumstances, but matters drift for a time in this unconstitutional way. But with the question of the terms of provincial organization up and one fifth of the seats in the legislature vacant the circumstances are not ordinary. These seats remain vacant because to fill them would precipitate a decision on the question of principle standing between the two colleagues in the Northwest government, with the necessary result that one or the other, or perhaps both, of those who now assume to speak the Territories would have no right to do so. This might, and no doubt would very seriously change the representations to be made on behalf of the Territories. The people at large are the interested parties in the question of and are entitled to their full say through their representatives in any and all discussions on the subject.

A case in point as showing how important it is that all seats in the assembly must be filled, before the Northwest government is in a proper position to negotiate on this question is that of Edmonton, one of the constituencies unrepresented since October 1st. Probably the most important question to be decided in connection with the proposed provincial organization is not how much shall be given to Manitoba, or into how many provinces the present Territories are to be divided, but how much of the adjoining and as yet unorganized territory to the north will be included in the new province or provinces. It is not necessary to argue that in view of the early development of the Peace River by the construction of the Grand Trunk Pacific that region should be included in the new province. Edmonton city is the trade centre for this country, and Edmonton interests loudly call for its immediate inclusion in the present organized Territories or in the new province. But Edmonton is unrepresented in the Northwest assembly and Edmonton interests are not protected. Edmonton has a right to be heard on this matter before the Northwest government assumes to present its case.

With the talk of the erection of two provinces another Edmonton interest comes to the front. While he knows that provincial organization for the Territories as a whole is not called for at the present time, and still less the organization of two provinces, if for any reason it is thought well to organize two provinces it is evident that Edmonton would have strong claims to be the capital of one of the provinces no matter what the division might be. If the division should be on or about the 4th principal meridian and the Peace River country were included Edmonton's geographically central position must be admitted. Without Strathcona it has the second largest population in the Territories, and with Strathcona has undoubtedly the largest. With the construction of the Canadian Northern and the Grand Trunk Pacific railways its position in the matter of railroad accommodation will be the best west of Winnipeg. It has every natural advantage such as beauty of situation, healthfulness, etc. But when representations are being made by the Northwest government on behalf of the Territories as a whole Edmonton being unrepresented is not in a position to present her case. Such an omission cannot arise again. If the opportunity is lost now it is lost forever, and unquestionably other interests and other localities, fully aware of that fact are actively rushing their present unfair advantages. Unfortunately the railroads have not yet reached here. But the location of a capital is for all time, and the positive certainty of the construction of the two competing railways to and through the city in the immediate future should have due weight in deciding the location of the capital.

If Manitoba is successful in her demand for a slice off the eastern side of the Territories and the remainder is formed into a single province the case for Edmonton as the capital is as strong as it would be for the most westerly of two provinces. A slice off the eastern portion of

Assiniboia would place the present capital of the Territories Regina so near to the eastern boundary that it would be out of the running as the capital Edmonton with 400 miles of level country to the northwest before the mountains are reached on the G. T. P. line would be much more central. But these advantages possessed by Edmonton have no value when they are not represented in the position taken by the Territorial government. The Dominion government unfortunately seems to be willing to willing to treat with the Territorial government as it finds it and it finds it just now with Edmonton and six other constituencies—with important interests as well as unrepresented.

Synopsis of Regulations for Disposal of Minerals on Dominion Lands in Manitoba, the Northwest Territories and the Yukon Territory

Coal.—Coal lands may be purchased at \$10 per acre for soft coal, and \$20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of 10 cents per ton of 2000 pounds shall be collected on the gross output.

Quartz.—Persons of eighteen years and over and joint stock companies holding free miners' certificates may obtain entry for mining location.

A free miner's certificate is granted for one or more years, not exceeding five, upon payment in advance of \$7.50 per annum for an individual, and from \$50 to \$100 per annum for a company, according to capital.

A free miner, having discovered minerals in place, may locate a claim 1,500 by 1,500 feet by marking out the same with two legal posts bearing location notices, one at each end of the line of the lode or vein.

The claim may be recorded within fifteen days if located within ten miles of a mining recorder's office, one additional day allowed for every additional ten miles or fraction. The fee for recording a claim is \$5.00.

At least \$100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When \$500 has been expended or paid the locator may, upon having a survey made, and upon complying with other requirements, purchase the land at \$1.00 per acre.

Permission may be granted by the Minister of the Interior to locate claims containing iron and mica, also copper, in the Yukon Territory, of an area not exceeding 160 acres. The patent for a mining location shall provide for the payment of

royalty on the sales not exceeding five per cent.

Placer Mining, Manitoba and the N. W. T., excepting the Yukon Territory.—Placer mining claims are generally 100 feet square, entry fee \$5.00, renewable yearly. On the North Saskatchewan river claims for either bar or bench, the former being 100 feet long, and extending between high and low water mark. The latter includes bar diggings, but extends back to the base of the hill or bank, but not exceeding 1,000 feet. Where steam power is used, claims 200 feet wide may be obtained.

Dredging in the rivers of Manitoba and the N. W. T., excepting the Yukon Territory.—A free miner may obtain only two leases of five miles each, for a term of twenty years, renewable in the discretion of the Minister of the Interior.

The lessee's right is confined to the submerged bed or bars of the river below low water mark, and subject to the rights of all persons who have or who may receive entries for bar diggings on bench claims, except in the Saskatchewan river, where the lessee may dredge to high water mark on each alternate leasehold.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles, but where a person or company has obtained more than one lease, one dredge for each fifteen miles or fraction, will be sufficient. Rental, \$10 per annum for each mile of the river leased. Royalty at the rate of two and a half per cent, collected on the output after it exceeds \$10,000.

Dredging in the Yukon Territory.—Six leases of five miles each may be granted to a free miner for a term of twenty years, also renewable.

The lessee's right is confined to the submerged bed or bars in the river below low water mark, that boundary to be fixed by its position on the first day of August in the year of the date of the lease.

The lessee shall have one dredge in operation within two years from the date of the lease, and one dredge for each five miles within six years from such date. Rental, \$100 per mile for first year, and \$10 per mile for each subsequent year. Royalty same as placer mining.

Placer Mining in the Yukon Territory.—Creek, gulch, river, and hill claims shall not exceed 250 feet in length measured on the base line or general direction of the creek or gulch the width being from 1,000 to 3,000 feet. All other placer claims shall be 200 feet square.

Claims are marked by two legal posts, one at each end, bearing notices. Entry must be obtained within ten days. If the claim is within ten miles of a mining recorder's office, One extra day allowed for each additional ten miles or fraction.

The person or company staking a claim must hold a free miner's certificate.

The discoverer of a new mine is entitled to a claim of 1,000 feet in length, and if the party consists of two, 1,500 feet each, together on the output of which no royalty shall be charged, the rest of the party ordinary claims only.

Entry fee, \$10. Royalty at the rate of two and one-half per cent, on the value of the gold shipped from the Yukon Territory to be paid to the Comptroller.

No free miner shall receive a grant of more than one mining claim on each separate river, creek or gulch, but the same miner may hold any number of claims by purchase, and free miners may work their claims in partnership by filing notice and paying fee of \$2. A claim may be abandoned, and another obtained on the same creek, gulch or river by giving notice and paying a fee.

Work must be done on a claim each year to the value of at least \$200.

A certificate that work has been done must be obtained each year; if not, the claim shall be deemed abandoned, and open to occupation and entry by a free miner.

The boundaries of a claim may be defined absolutely by having a survey made, and publishing notice in the Yukon Official Gazette.

Hydraulic Mining, Yukon Territory.—Locations suitable for hydraulic mining, having a frontage of from one to five miles, and a depth of one mile or more, may be leased for twenty years, provided the location has been prospected by the applicant or his agent, is found to be unsuitable for placer mining, and does not include within its boundaries any mining claims already granted.

A rental of \$150 for each mile of frontage and royalty at the rate of two and one-half per cent of the value of the gold shipped from the Territory are charged. Operations must be commenced within one year from the date of the lease, and at least \$5,000 must be expended annually. The lease includes all base metals, quartz and coal, and provides for the withdrawal of unoccupied land for agricultural and building purposes.

Petroleum.—All unappropriated Dominion lands in Manitoba, the Northwest Territories and within the Yukon Territory, are open to prospecting for petroleum, and the Minister may reserve for an individual or company having machinery on the land to be prospected, an area of 400 acres. Should the prospectors discover oil in paying quantities, and satisfactorily establish such discovery an area not exceeding 640 acres, including the oil well and such other land as may be determined, will be sold to the discoverer at the rate of \$1.00 an acre, subject to royalty at such rate as may be specified by order-in-council.

ST PETERSBURG A BATTLEFIELD
Continued from page 1.

Tsarcozels, a palace 15 miles from St. Petersburg. I had news is expected from Moscow and other big centres hourly. A general was murdered by the mob Sunday night.

The Warsaw railroad is being torn up by the people and trouble is brewing in Finland. The revolt may have been temporarily quelled in St. Petersburg, but the revolution throughout the country has commenced in earnest. The war with Japan must cease and the Russian people must have a Constitution or the Emperor may be at least deposed.

St Petersburg is in a state of siege with the streets yet running with blood. The whole populace is thirsting for vengeance and the dynasty of Romanoff is tottering to its downfall. Such are the results of the refusal of Nicholas Second to accept the petition of his loyal subjects to hear their grievances and to succour their starving families. According to a declared programme crowds began to wend their way yesterday morning to the Winter Palace, where they confidently expected to be received by the "Little Father," prepared to do something to relieve the distress of the strikers. Instead of this, they were repeatedly charged by the horse guards and received volley after volley from the Czar's own regiment.

Troops Fired on Mob

St. Petersburg, Jan. 22nd.—It is believed that 1500 people have been killed or wounded and popular rumors say that many thousands have fallen. The city is now quiet and the troops are bivouacked around camp fires in the streets.

At Narva gate the troops fired on the crowd led by Fathers Gopon and Sergius, the priests carrying a cross, an ikon and a portrait of the Emperor which were smashed.

At the Pulifitoff works the scenes resembled a shambles. There the working men fought the troops. When the order was given to fire they threw themselves upon their faces on the ground. The troops fired on them as they lay prostrate.

Barricades erected on the island of Vassili Ostrov last night, were destroyed by the troops almost immediately with the loss of thirty workmen killed. The workmen there have seized the dynamite factory, and 30,000 or 40,000 armed strikers from Kolpin 16 miles out are marching on St. Petersburg.

The Vassili Ostro quarters tonight is in darkness, neither gas nor electric light being available. The shops are being pillaged and the strikers are burning the telegraph poles. Some firing is heard. The strikers tried to reach Tsarkoselo, but were driven back by the troops after a sanguinary conflict.

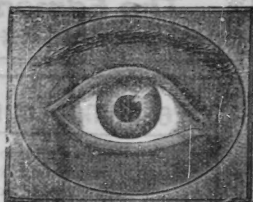

At a big mass meeting to-night the following message from M. Gorsky the novelist was read, "Beloved associates we have not now an emperor. Innocent blood lies between him and the people. Now begins the struggle for freedom. May it prosper. My blessing upon you all. A working man made a fiery speech. He appealed to Liberals to furnish arms. The meeting adopted a letter denouncing the officers and regiments that fired on the working men and another letter extolling the Moscow regiment which refused to fire.

Telegraph**Opposed to Immigration.****Bulletin Special.**

Winnipeg, Man., Jan. 21st.—As a result of the inquest to-night in the case of the Gaiciens held for the murder of George King, a negro of North Winnipeg on Tuesday, the jury returned a strong verdict against foreign immigration.

PREPARING FOR POULTRY SHOW.

The officers and directors of the Alberta Poultry and Pet Stock Association met in the offices of MacDonald & Griesbeck on Friday evening to make arrangements for the annual exhibition, which is to be held in Robertson Hall on Feb. 15 and 16th. The interest being taken in the work of the Association was shown by the lengthy list of special prizes and donations from the merchants of Strathcona and Edmonton. The indications are that a large number of entries will be made, and that the show will be most interesting and successful.

The North-West Government have chosen as poultry judge Mr. Cotterell of Milton, Ont. The judge of dogs will be Mr. J. Turnbull of Edmonton.

A convention of poultrymen will be held in the hall on the evening of February 16th, the last day of the show, when addresses will be delivered by Mr. Cotterell and other prominent poultrymen.

Mr. W. Elliott, Commissioner of Agriculture, is expected to be in attendance at the show and convention.

Red Deer Man Found Dead.

St. Thomas, Ont., January 23.—J. W. Griffin of Red Deer, Alberta, formerly of the firm of Griffin & Wright of this city was found dead in his bed here on Saturday, at the residence of his sister Mrs. Geo. Wright. Deceased had been visiting here several weeks.

Japan's Commerce Increases

Washington, D. C. Jan. 18.—The United States has received an interesting report from Griescom, the American minister at Tokio, dealing with the present economic condition in Japan and her trade relations with the United States. Mr. Griescom in several statistical tables compiled from official sources compares the first nine months of the present conflict with the same time last year. The present year shows an increase in exports of \$6,424,159 and an increase in imports of \$10,060,597. During the same period the increase of exports in specie and bullion amounting to \$41,400,694 and the increase in imports to \$1,842,370.

Way taxes have been increased on land incomes, business transactions, sugar, mines, houses, customs, consumption of wooden textile, consumption of kerosene oil and stamps, while a new source of considerable revenue is in the tobacco monopoly. The official estimate of the anticipated net income to be derived from that source for the year ending March 31st, 1905 is \$12,065,212 and \$16,000,000 for the year ending March 31st.

The government owned railroads likewise are valued by the ministry of finance at about \$955,000,000 and are estimated to bring a net income of \$4,750,000 for the coming year. This item and the tobacco monopoly are assets upon which it is generally supposed further foreign loans will be raised. Business throughout the empire is on the increase.

Sunlight Soap

represents care, skill and scientific accuracy in its manufacture. That is why it does your washing without shrinking woollens, fraying linens or injuring your hands.

Equally good with hard or soft water. No scrubbing, no boiling, more cleansing, less toiling.

is eligible to make a homestead entry under the provisions of this Act, reside upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent, may be satisfied by such person residing with the father or mother.

(3) If a settler has obtained a patent for his homestead, or a certificate for the issue of such patent, counter-signed in the manner prescribed by this Act, and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

(4) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon said land.

The term "vicinity" used above is meant to indicate the same township or an adjoining or cornering township.

A settler who avails himself of the provisions of Clauses 2, 3, or 4, must or substitute 20 head of stock, with buildings for their accommodation, cultivate 20 acres of his homestead, and have besides 80 acres subtenanted.

The privilege of a second entry is required by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd June, 1899.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled, and the land may be again thrown open for entry. Application for patent should be made at the end of three years, before the local agent, sub-agent, or Homestead Inspector. Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands, at Ottawa, of his intention to do so.

Information.—Newly-arrived immigrants will receive at the Immigration Office, in Winnipeg, or at any Dominion Lands Office, in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing land to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

W. W. CORY.

Deputy Minister of the Interior.
N.B.—In addition to Free Grant Lands to which the regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

ASSIGNEE'S SALE.

A Valuable Hotel Property.
There will be sold by Public Auction at the Prince of Wales Hotel in the town of Wetaskiwin in the North West Territories of Canada, on Wednesday, February 1st, 1905, at 2 p. m. the valuable premises, known as the Prince of Wales Hotel, in Wetaskiwin, Alberta.

This is a fine, new, solid, brick hotel, three stories and basement, with private electric light plant and waterworks, large sample rooms, Bath rooms, furniture new and up-to-date. This is considered to be the most modern, and best equipped hotel in the Territories.

The Hotel is licensed, and the property will be sold as a going concern. The Assignee reserves one bid. For further particulars and conditions of sale, write to J. B. Anderson, Assignee, Wetaskiwin, Alta., or to the undersigned.

M. E. O'Brien,
Wetaskiwin, Alta.,
Advocate for Assignee.

in giving satisfaction to our customers."

Lady—"I'm glad to hear it. I have a box of one of the so-called 'just as good as 2 in 1 polishes,' and it is no good. It's a pleasure to deal with a house that

sells what you want."

Shoe Clerk—"Well, madam, I would be very foolish to try to sell substitutes, for '2 in 1' is the best shoe polish made."

Black and Tan—10 and 25 cent boxes and 15 cent collapsible tubes. At all dealers.

The Canadian Northwest Homestead Regulations

Any even numbered section of Dominion Lands in Manitoba or the Northwest Territories, excepting one 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age to the extent of one quarter section, of 160 acres more or less.

ENTRY.—Entry may be made per district in which the land to be taken is situated, or, if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situated, receive authority for some one to make entry for him. A fee of \$10.00 is charged for a homestead entry.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased) of any person who

SATURDAY'S HOCKEY GAME.

The challenge issued some time since by the staff of Revillon Bros. for a friendly game of hockey was accepted by a team representing Ross Bros. The game was played on Saturday evening after the general skating, and resulted in a victory for the challengers by a score of 5 to 0.

The teams lined up as follows:

REVILLON BROS.	POSITIONS.	ROSS BROS.
Matheson	Goal	Wilson
Gibson	Point	Fifer
Johnston	Cover	Morden
Sherman	Rover	Carter
Banford	Centre	Collins
Spicer	Left Wing	West
Madill	Right Wing	Garneau

There were several old players on the teams and some very good play was put up.

FARMERS' PRICES AGAIN

Editor Bulletin:—

There appears in your issue of 13th January, a letter, stated by you, in your editorial, to be in the interests of fair play, and expert information may be all right, but where does the fair play come in? All the same we "farmers" welcome this letter as a break in the silence which has continued since the letter signed by "Farmer" appeared in your paper making certain accusations against the millers of Edmonton. But if the letter was meant as a clearing up between the mill parties, I am sorry to say it is a failure, and they are trying to make the best of a bad cause. "Whoever wrote the letter I should think must belong to the milling interest, and might at least have signed himself as such, so that we might know what interest he represents. I as the writer of letter signed "Farmer", which you were good enough to publish some time ago, stated (I hate to repeat myself, but evidently have to) that the farmers were receiving some 15 cents per bushel less for wheat than they ought to, which I still maintain, your correspondent would make us believe, that we farmers are entitled to give a present to the flour millers of Edmonton of 18 cents per bushel, which he says is the freight rate of wheat to Fort William. Then comes the old question which has never been answered, but which I will answer, "Are we shipping wheat to Fort William?" (Surely this is the last time we farmers will be compelled to ask this question) I again say we are not. Then why deduct a freight rate, which has never been paid, but evidently exists in the imaginations of the writer. If wheat is worth 95 cents in Fort William as a shipping point, surely it is equally worth the same or more in Edmonton as a consuming point. Surely this is pain to every one. When we are able to grow enough wheat to supply our own demands and have a large surplus to ship over and alone, then I admit we farmers would be in a slightly different position, but until that time comes our position is as stated. Your Correspondent quotes No. 1 wheat, not No. 1 hard or No. 1 Northern. This is a little misleading. As you stated in your article on markets some time ago, that quite a lot of ones wheat would grade No. 1 hard, which quality was not quoted in Winnipeg, because they had little of the grade to sell. Therefore there is still a further difference of price in favor of our farmers, to account for between No. 1 hard and No. 1 Northern. Now I think I have shown your correspondent where our kick does come in, and I hope he will admit it with good grace.

We are not at present in the position of giving premiums away to sell our wheat, in shape of a bogus freight rate. When we get rich, we may think of it, to benefit our poor millers. Why do not you, correspondent, when he is in the way of explaining matters, tell us how milling oats brought at 24 to 25 cents per 34 lbs. when made into rolled oats bring some 65 to 75 cents for 20 lbs. Is this another bogus freight business? I think it is time some one tried to make matters plain to us farmers. If not, then we have our way of explaining—certainly not to the credit of our millers.

FARMER

Edmonton, Jan. 19.

THE planters from whom I buy my tobacco in Cuba are the most expert tobacco growers in the world. They keep the plant nipped back carefully—free from suckers and only leaves enough on the plant for it to properly mature and nourish.

In this way the good of the tobacco—the proper qualities to make it excellent smoking, are evenly distributed all through the plant. Thus the leaf I secure for my Pharaoh filler is perfect—an even smoker—palatable and delicately odoriferous.

J. BRUCE PAYNE, Limited, Granby, P.Q.

For the rest I use as binder a Connecticut broadleaf, the highest grade and most costly binder grown—and as a wrapper I import direct from Holland a genuine clear leaf Sumatra—the finest wrapper in the world.—J.B.P.

None genuine unless branded PHA-RO

REPORT OF THE IRON PROPERTY

OF THE EDMONTON COAL AND IRON COMPANY

LOCATION.

About one hundred miles northeast of Edmonton on the north side of the Saskatchewan river and midway between Victoria and Lac La Biche in the North-West Territories of Canada.

TRANSPORTATION.

Good wagon roads from Edmonton and from Ft. Saskatchewan also south to Whitford and Battleford. The property is situated twenty miles north of the route of the Canadian Pacific Railway, near the route of the Grand Trunk Pacific, and within eight miles of the Saskatchewan river which is navigable.

CHARACTER OF COUNTRY.

Comparatively flat, prairie, relieved with low rolling hills, which are thickly wooded with small jack pine and fir. The pine runs from five to eight inches in diameter, and is suitable for fencing, building and fuel.

WATER SUPPLY.
There is a stream running through the property, which in the driest seasons yields an amply supply for all purposes. In addition there are two large lakes of fresh water on the property at least 300 acres.

DESCRIPTION OF PROPERTY.

This consists of six claims in townships 58 and 59, ranges 14 and 15, west of Fourth Meridian. The claims are named: Wee Aman, Wee Aman, Limonite, Farm, Revelstoke, Rita and Eva, and all being fully licensed by the Dominion Government to Messrs. McAdam & Johnson, and surveyed by Messrs. Saunders & Driscoll, F.L.S., in June 1904.

CHARACTER OF MINERAL DEPOSIT.

Oxide of iron, yielding on analysis, 45.2 per cent of metallic iron on the certificate of Mr. A. L. McKillop of Nelson, dated October 26, 1904.

OCCURRENCE OF DEPOSIT.

A stream runs through the property from north to south, and in the flat portions widens out into a large bog in which the ore is deposited for a distance of two miles in length and from 200 to 600 feet in width; the depth of the deposit is from six to fourteen feet. On the Wee Aman claim it is from 500 to 600 feet in width, and is a genuine bog ore. Towards the north end of the property the ground rises and the deposit is covered by several feet of gravel, put at points where the drift is cut evidences of the continuance of the deposit underneath are found.

WORK DONE.

A number of pits have been sunk, some twenty feet deep, through the deposit, and in each its continuity over the area named has been demonstrated. In addition a trench half a mile long has been cut to drain the upper or north end of the property. On the Wee Aman claim a substantial cabin and barn have been built.

QUANTITY.

The extent of the development work will not admit of a close estimate of tonnage, but I can safely say from the areas actually measured that a million tons would be well within the mark, and it is not improbable that this estimate will be greatly increased as work proceeds.

UTILITY OF DEPOSIT.

First, an excellent paint oxide for which a market could readily be found as the country opens up and railway facilities are provided.

Second, in combination with other ores for smelting and iron and steel manufacture, similar to that so successfully smelted at the Radnor Forge, Quebec, for many years.

COST OF DEVELOPMENT.

\$10,000 judiciously expended in sinking and boring would thoroughly prove the property. I believe that you would have in it a most valuable asset and one easily and quickly realizable, as it is more than likely from the character and occurrence of the deposit that the springs come from a stratified ore body below which should be disclosed by boring.

Having had thirty years' experience in locating and working various iron deposits, I have no hesitation in saying that this is a valuable property, and one which will justify the expenditure recommended.

FUEL.

On the banks of the Saskatchewan river eight miles south there is an outcropping of good lignitic coal running from 45 to 50 per cent in fixed carbon. This is easily accessible and available for fuel purposes.

Signed.

Don't let the children get the Calomel and "Liver pill" habit. Give them the natural laxative that is gentle and effective, pleasant to take, never gripes, and CURES constipation—

Abbey's Effervescent Salt

AT ALL DRUGGISTS, 25C AND 60C A BOTTLE

Rheumatism
Any kind—acute or chronic—inflammatory, muscular or sciatica—it's all the same to Hirst's Pain Exterminator. This famous liniment draws out all the pain—reduces the swelling—takes away the soreness and stiffness—in a few applications.

Hirst's Pain Exterminator

is applied right over the pain—rubbed in good and hard—and the pain is gone. It kills pain of any kind, from a sprain or lame back to the most agonizing Rheumatism or Neuralgia.

MR. J. DUFFIN OF FORT ACCORD SAYS:
"I was laid up with Rheumatism for three months and tried all kinds of medicine without obtaining relief. I was advised to try Hirst's, and before I had taken it two days, I was able to be up and help myself. I have improved right along and thank this medicine for my cure."

25c. a bottle. At all dealers.

We Have Also Cut

Our large line of Ladies' Cloth Coats 20 per cent., and an examination will show you that we have not only the largest and best assortment but the most reasonable priced stock in the City.

Revillon Brothers Ltd.

We Will Buy

A 50c. Bottle of Liquezone and Give it to You to Try.

We want you to know about Liquezone, and the product itself can tell you more than we. So we ask you to let us buy you a bottle—a full-size bottle—to try. Let it prove that it does what medicine cannot do. See what a tonic it is. Learn that it does kill germs. Then you will use it always, as we do, and as millions of others do.

This offer itself should convince you that Liquezone does as we claim. We would certainly not buy a bottle and give it to you if there was any doubt of results. You want those results; you want to be well and to keep well. And you can't do that—nobody can—without Liquezone.

We Paid \$100,000

For the American rights to Liquezone. We did this after testing the product for two years, through physicians and hospitals, after proving, in thousands of different cases, that Liquezone destroys the cause of any germ disease.

Liquezone has, for more than 20 years, been the constant subject of scientific and chemical research. It is not made by compounding drugs, nor with alcohol. Its virtues are derived solely from gas—largely oxygen gas—by a process requiring immense apparatus and 14 days' time. The result is a liquid that does what oxygen does. It is a nerve food and blood food—the most helpful thing in the world to you.

Its effects are exhilarating, vitalizing, purifying. Yet it is a germicide so certain that we publish on every bottle an offer of \$1,000 for a disease germ that it cannot kill. The reason is that germs are vegetables; and Liquezone—like an excess of oxygen—is deadly to vegetable matter.

Germ Diseases.

These are the known germ diseases. All that medicine can do for these troubles is to help Nature overcome the germs, and such results are indirect and uncertain. Liquezone attacks the germs, wherever they are. And when the germs which cause a disease are destroyed, the disease must end, and forever. That is inevitable.

Asthma, Abcess—Anemia, Bronchitis, Blood Poison, Bright's Disease, Liver Troubles, Bowel Troubles, Consumption, Cough—Cold, Constipation, Cilia—Croup, Otitis—Osteomyelitis, Catarrh—Cancer, Diphtheria—Diarrhea, Dropsy, Eczema, Erysipelas, Glandular Diseases, Hay Fever—Influenza, Kidney Diseases, La Grippe, Leucorrhea, Liver Troubles, Malaria—Neuralgia, Many Heart Troubles, Pleurisy—Pneumonia, Rheumatism, Scarlet—Scabies, Scrofula—Syphilis, Skin Diseases, Stomach Troubles, Throat Troubles, Tuberculosis.

Fever—Gall Stones, Gout—Gout, Gonorrhea—Gleet, Various Diseases, Women's Diseases. All diseases that begin with fever—all inflammation—all catarrh—all contagious diseases—all the results of injury or poison—blood. In nervous debility Liquezone acts as a vitalizer, accomplishing what no drug can do.

50c. Bottle Free.

If you need Liquezone, and have never tried it, please send us this coupon. We will then mail you an order on a local druggist for a full-size bottle, and we will pay the druggist ourselves for it. This is our free gift, made to convince you; to show you what Liquezone is, and what it can do. In justice to yourself, please, accept it to-day, for it places you under no obligation whatever.

Liquezone costs 50c. and \$1.

CUT OUT THIS COUPON
For this offer may not appear again. Fill out the blanks and mail it to the Liquid Ozone Co., 416-418 Wabash Ave., Chicago.

My disease is
I have never tried Liquezone, but if you will supply me a 50c. bottle free I will take it.

Give full address—write plainly.

Any physician or hospital not yet using Liquezone will be gladly supplied for a test.

Notice

At a meeting of the Directors of
The Whitelaw Co.
 Limited,

Held 5th January 1905, it was unanimously decided that on and after the First day of February, 1905, a strictly

CASH BUSINESS

would be done.
 We take this opportunity of thanking the Public heartily for their past patronage, and trust that, even under the new conditions, they will continue to favor us with a fair share of their custom.

We anticipate that being on a Cash Basis we shall be enabled to supply FIRST-CLASS GOODS at the lowest possible prices consistent with business methods.

A LITTLE PRESENTATION.

On Saturday evening at the Heimeinck Rooms, a very pleasant episode occurred. Mr. Malin, of the staff of the Windsor, had married on the previous Monday, Miss Nellie Helm. So the boys who had known and respected the happy bridegroom assembled together and while presenting Mr. Malin with a purse of \$150 managed to improve the occasion and spend a right enjoyable evening. Mr. McLachlin, of the Grandview, "as in the chair and opened the proceedings with a most humorous speech. There were then selections by the band, songs, and speeches—short and long—and a clog-dance by Guy Watkins, etc. Amongst the songs Mr. McLeod brought the boys to silence with his excellent rendering of "Queen of my Heart". Clarke's band was as usual much appreciated, making the boys move about the floor as though they were boys. A great deal of good feeling was expressed toward Mr. Malin. The proceedings terminated with good wishes all round.
